

Keisha Brooks

Letter of Recommendation 2

To Whom It May Concern,

It is with great enthusiasm that I recommend Keisha Brooks, a student I've had the privilege to teach in Business Fundamentals. Keisha's dedication to understanding the intricacies of business operations is commendable and reflects her hands-on experience assisting her family's local business.

Keisha's natural inclination towards responsibility is evident in her participation in class. She often draws from real-life examples, sharing her firsthand experiences of managing customer relationships, accounting basics, and team collaboration from her family business. Such insights have enriched class discussions and provided her peers with a more practical understanding of theoretical concepts.

Furthermore, her values of family, creativity, and loyalty are evident in her commitment to her academics and extracurriculars. While she is a responsible individual, always ensuring her duties at home and school are met, she also makes time to pursue her hobbies, such as attending local music gigs, which speaks volumes about her time management skills.

Keisha Brooks is not just an average student; she is a young entrepreneur in the making. Her practical experience, combined with her academic knowledge, positions her as an asset for any higher learning institution. I am confident that she will bring her diverse skill set, passion, and dedication to your esteemed institution.

Best wishes,
Keisha's Business Studies Teacher
