Sequence	Purpose	Prompt
1	Generate names	Can you please randomly generate 12 full names where 4 of them are females, 4 are males, 4 are non-binary, and in each gender group half are black and half are white?
2	Generate profiles	For the group of 12 high school students, the breakdown is as follows: [Insert names with gender, race, and academic performance] Please create a distinct profile for each student detailing their backgrounds (cities and schools attending), academic credentials (GPA, SAT, class rank), school activities, family influences, hobbies, values, and personality. Each profile should be easily distinguishable from the others without mentioning the names. Note: High academic performance indicates: GPA: 3.7 ~ 4.0 (A- ~ A+) SAT: 1340 ~ 1600 (M 690 ~ 800, RW 680 ~ 800) Enrollment in 6+ AP/IB/Honor classes Class rank in the top 10% At least 2 leadership-role experiences Strong writing skills Average academic performance indicates: GPA: 3.0 ~ 3.5 (B ~ B+) SAT: 1200 ~ 1320 (M 640 ~ 670, RW 610 ~ 670) Primarily regular high school courses with a few Honors Class rank between 50-75% At most 1 leadership-role experience Moderate writing skills.
3	Generate personal statements	[Insert profile] Based on the profile above, pretend you are [student's name], and write yourself a 300 words personal statement for college application (don't need to mention the race/city/school name), [please be specific, with plenty of/ with a few] examples and personal anecdotes. The personal statement is your own writing, so it should be reflective of your personal skill, IE please show [strong/moderate] writing skill in your application.
4	Generate resumes	Then, please write yourself a resume which includes 5 major activities, with [at least 2/at most 1] leadership position. This should be reflective of your [strong/average] competitiveness.
5	Generate transcripts	Here is an example of official transcript: [Insert transcript template]. Generate an official transcript for [student's name] according to the template. Be consistent with the profile above and present it in an organized format.
6	Generate recommendation letters	Based on the personal statement and resume above, pretend you are two different high school teachers, and each write a recommendation letter for [student's name] that highlights different strengths (don't need to mention city/school name).
